FOUNDRY TRADE JOURNAL

INDEX TO VOLUME 152 - JANUARY TO JUNE, 1982

A

Advanced Information Services available from BNF, 841
Airedale and Wharfedale College of Further Education, Education and Training at, 787
Altrincham Laboratories offers Nationwide Metallurgical Testing Service, 476
AFS Castexpo '82, 853
Aluminium-silicon Alloys, Compocast Graphite, 253
Aluminium Alloy LM24 to BS1490, Physical Effects of Variations in the Composition of, 887
ASEA, Low-pressure Diecasting at, 259
Atlantis Foundry approaches completion in South Africa, 456
Automatic Moulding and Handling Systems, 563
Automatic Mould Handling, Developments in, 564
Automatic Pressure Diecasting, 115

B

Battelle proposes to study Fracture Toughness of Cast Irons, 7
Barlow Marine Limited, Investment Casting Plant purchased by, 383
Beevor Foundry assists the Production of High Technology Castings, 3m Investment at, 233
Beevor Melt Facility is a Tribute to Project Manager, 512
Belgium, Diecasting Society Members visit, 512
Beyond Survival—Prospects and Possibilities for the British Foundry Industry after the Recession, 811
Birmid Qualcast Foundries link with Meehanite on Energy Policies, 79
Birmid Qualcast Foundry, Research Grant benefits, 357
BNF, Advanced Information Services available from, 841
Bolton Technology Institute presents Merit Awards, 687
Boxless Greensand Moulding—a Process with Potential, 870
Bracknell Group offers NDT and Machining Facilities, 483
BCIRA Seminar gives Results of Ironfoundry Energy Survey, 817
BCIRA in the West Midlands, 313
British Ronceray offer Moguloid Technology, Casting Impregnation—, 465
Brockhouse extends Casting Range, 144
Brownall Foundry, Opening of, 147
Brownall to open New Foundry, 110

C

Calcination Process, Thermal Reclamation by, 37
Cash Control in a Recession: Finance for the Foundryman, 178
Casting Impregnation—British Ronceray offer Moguloid Technology, 465
Casting in Ancient China, 172
Castings and Forgings Exhibition, European, 512
Castings Clinic is a Forum for S.-g Iron Producers, 515
Casting Voids, Hot Isostatic Pressing can Seal, 463
Cast Irons for Automotive Braking Applications, Titanium-bearing, 232
China, Casting in Ancient, 172
Coalbrookdale Company exhibit at HEVAC, 756
Cold-box Process for Coremaking, Practical Experience with, 625
Coldcast Bronze Prosecution Successful, 284
Compocast Graphite Aluminium-silicon Alloys, 253
Computer for Foundry, Management, 287
Conveying in the Foundry, Some Aspects of Pneumatic, 550
Coremaking, Practical Experience with the Cold-box Process for, 625
Co_2-Silicate bonded Sand, Reclamation of, 40
Cronite, Export Orders for, 753
Cronite make Thin-wall Castings for Denmark, 145
Cupola Dust Arrest, A Dry System for, 99
Cupola Manufacture in Keighley, 80 Years of, 791

D

Darwins Alloy Castings, Sand Reclamation at, 34
Development of Founding in the Midlands, The, 336
Diecasting—a Review of Properties and Casting Techniques, Zinc Alloys to BS1400 for, 429
Diecasting at ASEA, Low pressure, 259
Diecasting, Automatic Pressure, 115
Diecasting Company, Thinking of buying a, 583
Diecasting Society Members visit Belgium, 575
Diecasting Society—Midlands Branch, 320
Duport Harper Foundries look to the Future, 752
Dust Arrestment, A Dry System for Hot-blast Cupola, 99
Dyson and SCRATA, Steel Castings Running System developed by, 878

E

Education and Training at Airedale and Wharfedale College of Further Education, 787
Effect of Coal Dust and Carbon Powder Additions on Metal Penetration in Greensand, 864
80 Years of Cupola Manufacture in Keighley, 791
Energy Policies, Birmid Qualcast link with Meehanite on, 79
Energy Survey, BCIRA Seminar gives Results of Ironfoundry, 817
Enterprise and Initiative Rewarded: Metalwood Patternmaking thriving after only 24 Years, 661
Exhibition to give Marketing Opportunity for Foundries and Forges, 460
Experience with the SO_2 Process, 641
Export Orders for Cronite, 753

F

Ferodo sign Marketing Pact, Meehanite and, 45
Fight for Business—How Yorkshire Foundries are adapting to Changing Markets, The, 765
Finishing Treatments, Metalseal offers Range of, 478
Ford Motor Company, Energy Saving Furnace commissioned at, 158
Forklifts, Foundries present Hostile Environment for, 416
Forklift Trucks—an Essential Foundry Tool, 403
Forklift Truck Failures, 410
Foseco, Open Days mark 50 Years of Business for, 840
Founding in the West Midlands, the Development of, 336
Foundries EDC News, 459
Foundries present Hostile Environment for Forklifts, 416
Foundry Congress will be held in Chicago, 49th International, 219
FITC News, 457, 755
Foundry Training in the West Midlands, 324
Foundry Training—the Involvement of METCON, 332
Fracture Toughness of Cast Irons, Battelle to Study, 7
Fuel Consumption in Non-ferrous Foundries, reducing, 247
Fulmer Research Institute offers Testing and Analysis Service, 481
Fume Removal during Casting at North Road Foundry, 809
Furnace commissioned at Ford Motor Company, Energy Saving, 158
Furnace for Motor Company, Gas-fired Molten-irons, 489
Furnace Installation at Giddings & Lewis-Fraser, 181
Furnaces Exhibition, International, 287

FOUNDRY TRADE JOURNAL INDEX

G

Gas-fired Equipment, Non-ferrous Melting and Holding—a Review of New, 151
Gas-fired Molten-iron Holding Furnace for Motor Company, 489
General Considerations for the Choice of Medium Frequency for Induction Melting, 83
GEM Award Scheme leads to Major Energy Savings, 4
Giddings & Lewis-Fraser, Furnace Installation at, 181
Glynwed, Kitemark Licences granted to, 8
Greensand, Effect of Coal-dust and Carbon Powder Additions on Metal Penetration in, 864
Greensand Moulding—a Process with Potential, Boxless, 870

H

Handling Systems, Automatic Moulding and, 563
HSE Document seeks to reduce Manual Handling Accidents, 844
Highest Quality Castings—Which Moulding Process?, 611
Hot-blast Cupola Dust-arrestment, a Dry System for, 99
Hot Isostatic Pressing can heal Casting Voids, 463
Holding Furnace for Motor Company, Gas-fired Molten-iron, 489
Huddersfield Foundry to cast Nuclear Valves, 605

I

IMF Reclamation Equipment installed at Italian Foundry, 33
Induction Melting, General Considerations for the Choice of Medium Frequency for, 83
Inmold Process Meeting held in USA, 80
IBF Birmingham Branch and Sections, 316
IBF News 46; 148; 220; 420; 604; 879
IBF, West Riding Branch of, 791
Investment Casting Plant purchased by Barlow Marine Limited, 383
Investment of 3m at Beevor Foundry assists the Production of High Technology Castings, 223
Ironfoundry Energy Survey, BCIRA Seminar gives Results of, 817
Italian Foundry, IMF Reclamation Equipment installed at, 33

J

Japanese can do it—Why can't We? The, 891
Japanese success for British Foundry, 752

K

Keighley Laboratories offers Free Analysis, 478
Kitemark Licences granted to Glynwed, 8

L

Low-pressure Diecasting at ASEA, 259

M

Machining Company gains BSI Capability Registration, 466
Maltese Foundry, Induction Furnaces to be installed in, 707
Management Buy-out at BSC Hamiltons, 684
Management Buy-out at Wombwell Foundry, 217
Management Computer for Foundry, 287
Manual Handling Accidents, HSE Document seeks to reduce, 844
Medium Frequency for Induction Melting, General Considerations for the Choice of, 83
Meehanite and Ferodo sign Marketing Pact, 45
Meehanite Seminar informs and educates Customers, 380
Meehanite on Energy Policies, Birmid Qualcast Foundries to Link with, 79
Melting and Holding—a Review of New Gas-fired Equipment, 151
Metal Penetration on Greensand, Effect of Coal-dust and Carbon Powder Additions on, 864
Metallurgical Testing Service, Altrincham Laboratories offer Nationwide, 476
Metalseal offers Range of Finishing Treatments, 478
Metalwood Patternmaking: Enterprise and Initiative rewarded, 661
METCON, Foundry Training—the Involvement of, 332
Microcomputers in Foundry Management, Seminar held on, 76
Moguloid Technology, Casting Impregnation—British Ronceray offer, 465
Moulding Complex, Vowles Foundries New Furan Self-setting, 691
Mould Handling, Developments in Automatic, 564
Moulding Process, Highest Quality Castings—Which, 611
Mould Washes containing Sn and Sb to regulate the Surface Structure of Cored Iron Castings, 166

N

NFETA Grangemouth Centre specifies Advanced CO_2 Silicate Process System, 646
National Society of Master Patternmakers, 649
New Engineering Safety Laboratory opened, 144
New Literature, 43, 755
New Quality Assurance Scheme for Sub-contractors, 384
New Steel Foundry opens at Sheffield, 285
Ni-hard Iron developed by Sheepbridge, 220
Non-ferrous Foundries, Reducing Fuel Consumption in, 247
NDT and Machining Facilities, Bracknell Group offers, 483
NDT Techniques for the Castings Producer, Specialist, 485
Non-ferrous Foundry for the Production of Castings to Exacting Standards, Vickers modernise, 393
Non-ferrous Foundry Report could Mislead, 217
Non-ferrous Melting and Holding—a Review of New Gas-fired Equipment, 151
Norwegian Authority buys College Video Programme, 287
Nuclear Valves, Huddersfield Foundry to cast, 605

O

O.H. Hi-Tec offers Complete Inspection Facility, 486
Open Days mark 50 Years of Business for Foseco, 840
Opening of Brownall Foundry, 147

P

Patent Abstracts, 187
Patternmaking Machinery, Survey of Preferred, 651
Patternmakers, National Society of Master, 649
Permanent Mould Process stands the Test of Time, 513
Physical Effects of Variations in the Composition of Aluminium Alloy LM24 to BS1490, 887
Plant and Equipment required for Continuous Porous Plug Desulphurising and Recarburising, 159
Pneumatic Conveying in the Foundry, Some Aspects of, 550
Porous Plug Desulphurising and Recarburising, Plant and Equipment required for, 159
Practical Experience with the Cold-box Process for Core-making, 625
Pressure Diecasting, Automatic, 115
Project Manager, Beevor Melt Facility is a Tribute to, 512

Q

Quality Assurance Scheme for Subcontractors, New, 384

R

Range of Quality Assurance Services available from SCRATA, 469
Recent Developments in Gravity and Low-pressure Die-casting Machines, 725
Reclamation of Co_2-silicate-bonded sand, 40
Reducing Fuel Consumption in Non-ferrous Foundries, 247

Reorganisation at Steelcast, 216
Research Grant benefits Birmid Qualcast Foundry, 357
Resources Conference to be held in Salfords, 383
Runners and Risers, Developments in the Use of Depressed Centre Grinding Wheels for the Removal of, 709
Running System developed by Dyson and SCRATA, Steel Castings, 878

S
Sand Reclamation and its Processing for Reuse, 25
Sand Reclamation at Darwins Alloy Castings, 34
Sand Reclamation at Wellman Incanite Limited, Furan, 35
Sand, Reclamation of CO_2-Silicate Bonded, 40
Sand Reclamation, Successful, 19
Sand Reclamation—Where are we going?, 11
Self-setting Moulding Complex, Vowles Foundries New Furan, 691
Seminar held on Microcomputers in Foundry Management, 76
75 Years of Founding at Sterling Metals Limited, 519
Shot-making Company improves Shot-life by Thirty Per Cent, 706
Small Engineering Firms Investment Scheme will fund Equipment, 685
Sn and Sb to regulate the Surface Structure of Cored Iron Castings, The Use of Mould Washes containing, 166
Solidex 82 highlights Bulk-handling, 688
Some Aspects of Pneumatic Conveying in the Foundry, 550
South Africa, Atlantis Foundry approaches Completion in, 456
SO_2 Process, Experience with, 641
Speedy Golden Jubilee celebrated at House of Commons, 357
Specialist NDT Techniques for the Castings Producer, 485
S.-g Iron Producers, Castings Clinic is a Forum for, 515
SCRATA prospers by integrating Interests, 779
SCRATA, Range of Quality Assurance Services available from, 469
SCRATA, Steel Castings Running System developed by Dyson and, 878
Steel Castings Running System developed by Dyson and SCRATA, 878
Steelcast, Reorganisation at, 216
Steel Foundries close under Rationalisation Scheme, 513
Steel Foundry opens at Sheffield, New, 285
Successful Sand Reclamation, 19
Surface Structure of Cored Iron Castings, The Use of Mould Washes containing Sn and Sb to regulate the, 166
Survey of Preferred Patternmaking Machinery, 651

T
Testing and Analysis Service, Fulmer Research Institute offers, 481
Testing Service in the North East, 487
Thin-wall Castings for Denmark, Cronite make, 145
Thermal Reclamation by Calcination Process, 37
Thermographic Monitoring Service, 486
Total Seal for Porous Castings, 485
Titanium-bearing Cast Irons for Automotive Braking Applications, 232
Training at Airedale and Wharfedale College of Further Education, Education and, 787
Training at West Bromwich College, 328
Training in the West Midlands, Foundry, 324
Training—The Involvement of METCON, Foundry, 332

U
UK Robot Population doubles in One Year, 381
Use of Mould Washes containing Sn and Sb to regulate the Surface Structure of Cored Iron Castings, The, 166

V
Vibratory Equipment in the Foundry Industry, Use of, 560
Vickers Modernise Non-ferrous Foundry for the Production of Castings to Exacting Standards, 393
Vowles Foundries' New Furan Self-setting Moulding Complex, 691

W
West Bromwich College, Training at, 328
West Midlands, The Development of Founding in, 336
West Midland Founders trim for Changing Demand, An Industry in Transition—, 297
West Midlands, BCIRA in, 313
West Midlands, Foundry Training in, 324
West Riding Branch of the IBF, 791
West Yorkshire Bronze Founder reaps benefit of Accurate Box-components, 792
Wellman Incanite equip for the Future, 605

Y
Yorkshire Foundries are adapting to Changing Markets, The Fight for Business—How, 765
Yorkshire Heritage—Some Milestones in Casting Production, 795

Z
Zinc Alloys to BS1400 for Diecasting—a Review of Properties and Casting Techniques, 429

INDEX OF AUTHORS
